President's Say

Guest Speaker: Fr Terry Kelly SJ

Meeting 543 got the grey matter pulsing when our guest speak Fr Terry Kelly SJ, Science Master from St Ignatius College, Athelstone addressed us on "Science and Religion".

Fr Kelly is the author of a new textbook with the same title, so he also brought along his own publisher. Some of us have bought the draft at a discounted rate, while others have put in an order for the finished product.

Terry only had 20 minutes to cover the mysteries of the universe and I am still not sure if I should attend Mass next Sunday or not, but he certainly got us all thinking.

One thing that he clarified for us was the bad press that the Vatican has got over the suppression of Galileo's work. If we could look at Galileo's finding not through our eyes, but with those of the day, we would see that Galileo was not just attacking biblical teaching, but also the wisdom of the ages, going back to Aristotle. Galileo was trying to turn 2,000 years of teaching on its head. For this reason was not only on the outer with the Vatican, but he was under attack from the scientific minds of the time.

Footy Tipping

In Lindsay's absence we could not officially announce the winner of the Footy Tipping, but it looks like John Kennedy has bumped the President for first place the post. Well done, John. More from Lindsay on this at Tuesday's meeting. We are all relieved that Lindsay's dog did not sweep the pools as he was looking fairly strong at some point during the season.

Tuesday's Guest Speaker

Barbara Gare will be our guest speaker this Tuesday. Her topic is Why Natural? I am hoping that we don't have to discard our clothing in keeping with the theme and Go Natural, but as Barbara is Rosanne's guest I am sure it has something to do with Natural Beauty. I look forward to hearing Barbara.

This week's meeting

Speaker

Barbara Gare - Y Natural?

Barbara is the one of the owners of the skincare & haircare company, Y Natural. Y Natural is the producer of the world's best, most naturally beneficial skincare and haircare range. To find out more about Y Natural, please click on the website:

<http://www.ynatural.com.au/index.php>

Barbara's role is Director for Marketing, Branding, Communications & IT. Barbara's career has centred upon roles in science, innovation, communication, technology and commercialisation. These include running the national Innovation Program for m.Net Corporation, working with consulting mathematicians at the University of Adelaide and as a geophysicist in the oil and gas industry. The 1998 recipient of the prestigious Guy Lloyd MBA Scholarship, Barbara completed her MBA studies in 1999, having undertaken every international subject available. She has studied extensively at tertiary level, covering a wide range of disciplines. Her Bachelor of Science (Hons) was in the biological and geological sciences, and later studies toward a Bachelor of Arts were in Chinese, German, Spanish and Philosophy.

President Mark and Noel

Roster

Below is the roster for September.

Substitutions

If you are unable to fulfil your allocated role as scheduled, it is *your responsibility* to arrange for another member to substitute for you.

Date	Stewards	Chairperson
11 th Sept	Pamela Williams/ Kevin Webb	Pauline Hill
18 th Sept	Rosanne Vignogna/ Sue McKay	John Kennedy
25 th Sept	Bill Northrop/Bronwyn Hyder	Graham Holcroft
2 nd Oct	Julian Mazzone/ Brenton Oates	Sue McKay
9 th Oct	Lindsay Davis/Noel Speck	Craig Sumsion
16 th Oct	Wayne Abbott/Graham Holcroft	Pamela Williams
23 rd Oct	Craig Sumsion/Sandy Sumsion	Mark Martin
30 th Oct	Mark Martin/John Kennedy	Wayne Abbott

Welcome Noel Speck

It was a pleasure to induct our 2nd new member for the year – the enthusiastic and energetic Noel Speck.

Many will have met and chatted with Noel during his numerous visits to our club. They will know a bit about his love of lacrosse; prowess as coach of state and national championship teams; his work with the Campbelltown EFM fitness group; and his expertise with NLP (Neuro-linguistic programming). However, there is much more to this man that will be revealed as he becomes more involved with the club in future.

We look forward to meeting his wife Sue (and 4 children) in due course.

Noel has the classification of Fitness Management and joins the Membership Committee.

Lindsay

Football Legend – John Kennedy

The following quote is taken directly from Wikipedia and refers to John Kennedy Snr, the legendary Australian rules football coach and player.

“Kennedy was renowned for his toughness and skill. He was an inaugural induction into the Australian Football Hall of Fame. As a coach, Kennedy has a similar reputation for toughness, but also for oratory. Kennedy is notorious for borrowing ideas from any source he thinks will inspire the players, but it is his passion rather than his quotations that he is best known for. In the 1975 Grand Final, his exhortation to the Hawthorn players at half time was: *"Don't think, don't hope, do! Do something!"*

However, not much is different with our John Kennedy.

“Kennedy was renowned for his toughness and skill. He was an inaugural induction into the Magill Sunrise Australian Football Tippers Hall of Fame. As a club member, Kennedy has a similar reputation for toughness, but also for rotary. Kennedy is notorious for borrowing ideas from any source he thinks will inspire the club, but it is his passion rather than his quotations that he is best known for. In the 2007 Club Meetings, his exhortation to the Magill Sunrise members at breakfast was: *"Don't think, don't hope, do! Do something!"*

Yes, our John Kennedy is the outright winner of the inaugural Rotary Club of Magill Sunrise Foody tipping competition – and accordingly will collect the big dollars. Congratulations also go to the minor round winners and other end-of-season winners:

- Mark Martin (2nd Place)
- Bron Hyder (10th Place)
- Fiona Sommers-Cain (just behind 2nd-last).

And a reminder that **the Rotary Foundation received \$180.00 from the entry fees** (and the Sergeant received some easy fines material).

I note that in the final round, 4 tippers scored a perfect 8 and half the field scored 7 or better – suggesting most people have now figured out the winning strategy – alas, just a little too late for this season, but watch out next year!!!

Thanks all
Lindsay

2007 District Conference

This is a good week to sign up, obtain the discount and join our already keen group. Particularly for those who haven't been before, give it a go.

What happens there?

Fun, food, displays and a huge range of presentations - incl Rear Admiral Kevin Scarce [Governor of South Australia], Geraldine Cox [Cambodian Orphanage], Scott Field [Rotary Peace Scholar], Phil Hollows [Water Resources/ Environmental Issues], Dean Jaensch [Political Commentator], Peter Marshman [Youth Opportunities], John Reid [Population and Development], Ziggy Switkowski [Future Energy], Katrina Webb [Motivational Speaker] and more.

And remember, it's easily accessible (it's in Adelaide); a shorter time frame; less than normal cost (no accommodation add-ons and benefits from substantial sponsorships negotiated by organisers).

So why not treat yourself to some inspiration, education and fun?

Conference Dates: 5pm Fri 12th – 1.00pm Sun 14th Oct
Conference Costs: \$125 per person (up to 15th Sept)
Conference Website:

www.rotary9520conference.org.au

Youth Exchange Program

Please contact Sandy & Craig to confirm your arrangements for spending time with Aline.

City Bay

We have a small but keen team ready to tackle the City Bay again on Sunday 16th September (i.e. next week). If you are intending to be in it, please speak to Noel or Lindsay this Tuesday.

BULLETIN

Did you know?

The Four-Way Test

1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it build GOODWILL and BETTER FRIENDSHIPS?
4. Will it be BENEFICIAL to all concerned?"

Object of Rotary

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

FIRST. The development of acquaintance as an opportunity for service;

SECOND. High ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian's occupation as an opportunity to serve society;

THIRD. The application of the ideal of service in each Rotarian's personal, business, and community life;

FOURTH. The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

Cerebral Cortex

The **cerebral cortex** is a brain structure in vertebrates. In non-living, preserved brains, the outermost layers of the cerebrum has a grey color, hence the name "grey matter". Grey matter is formed by neurons and their unmyelinated fibers while the white matter below the grey matter of the cortex is formed predominantly by myelinated axons interconnecting different regions of the central nervous system. The human cerebral cortex is 2-4 mm (0.08-0.16 inches) thick and plays a central role in many complex brain functions including memory, attention, perceptual awareness, "thinking", language and consciousness.

The surface of the cerebral cortex is folded in large mammals where more than two thirds of the cortical surface is buried in the grooves, called "sulci". The phylogenetically more ancient part of the cerebral cortex, the hippocampus, is differentiated in five layers, while the more recent neo-cortex is differentiated in six basic layers. Relative variations in thickness or cell type (among other parametres) allows us to distinguish among different neocortical architectonic fields. The geometry of these fields seems to be related to the anatomy of the cortical folds and, for example, layers in the upper part of the cortical grooves (called gyri) are more clearly differentiated than in its deeper parts (called sulcal "fundi").

Word of the Week

fungible \FUHN-juh-buhl\, *adjective*:

1. (Law) Freely exchangeable for or replaceable by another of like nature or kind in the satisfaction of an obligation.

2. Interchangeable.

noun:

1. Something that is exchangeable or substitutable. Usually used in the plural.

BULLETIN

Joke of the Week

There was this little guy sitting in a bar, drinking his beer, minding his own business when all of a sudden this great big dude comes in and -- WHACK!! -- knocks him off the bar stool and onto the floor. The big dude says, "That was a karate chop from Korea." The little guy thinks "GEEZ," but he gets back up on the stool and starts drinking again when all of a sudden -- WHACK!! -- the big dude knocks him down AGAIN and says, "That was a judo chop from Japan." So the little guy has had enough of this... He gets up, brushes himself off and quietly leaves. The little guy is gone for an hour or so when he returned. Without saying a word, he walks up behind the big dude and -- WHAM!!!!" -- knocks the big dude off his stool, knocking him out cold!!! The little guy

looks at the bartender and says, "When he gets up, tell him that's an pickaxe handle from the back of the ute!"

On this day – 9th September

In 1754 William Bligh nasty ship's captain and New South Wales governor (HMS Bounty), born.

First U.S. ShelterBox Response Team members deliver landmark aid

By Janice Chambers
Rotary International News
Photo by Mark Pearson

The Shelterbox that marked 500,000 people helped by the program was delivered to Jagadeo Argairiya, who has a family of 10, including five young children.

On her first trip delivering disaster relief for [ShelterBox](#), Trannie Lacquey encountered Maoist guerillas, crossed swollen rivers on foot, and hiked miles in a remote, tension-filled corner of Nepal.

But the toughest challenge, says the grandmother of five, was clearing customs at the airport for 410 ShelterBox relief kits, which would help hundreds of families trapped by the monsoon floods that swept Nepal in August. It took 10 days.

“It was tedious and very frustrating. We knew people were waiting,” she says.

Fortunately, extensive training at a [ShelterBox Response Team](#) training camp in Cornwall, England, paid off, she says. Lacquey and her husband, John, members of the Rotary Club of Branford, Florida, USA, and Gary Boe, a member of the Rotary Club of Lewis River, Washington, USA, were the first U.S. ShelterBox Response Team members sent on a disaster relief mission.

They also made history, as they delivered the ShelterBox that marked 500,000 disaster victims aided by the Rotarian-sponsored nonprofit.

Shelterbox started as a small project by the Rotary Club of Helston-Lizard, England, in 2001, but it took off quickly. To date, it has raised £15 million and

delivered aid in 33 countries. Recently, the Duchess of Cornwall, Prince Charles’s wife, Camilla, agreed to serve as president of ShelterBox. She is believed to be the first Royal Patron of a Rotary club project in the United Kingdom.

Each ShelterBox costs about US\$900 and is intended to help a family of 10 survive for six months. It contains custom supplies that typically include a large tent, blankets, water purification and cooking equipment, basic tools, and a multi-fuel stove. Rotary clubs provide more than half the funding, and private donors contribute the rest.

The effort also depends on energetic volunteers like the Lacqueys, who arrived home 1 September after three weeks in Nepal and are now repacking for a weekend in Blackwater River State Park in Florida, where they’ll help train more response team recruits.

They’ll also tell stories from their recent trip. “The rice paddies were still flooded,” John Trannie recalls. “People lost everything. They were living under tarps in the rain. The living conditions were just horrible.” But through it all, he says, “People would help their neighbors. It was a very humbling experience for us.”

Recently, ShelterBox enjoyed another first. It received its first [Matching Grant](#) from [The Rotary Foundation](#), allowing 24 boxes to be delivered to northern Ethiopia in October, providing desperately needed shelter for Sudanese refugees. The grant was funded by the Rotary clubs of Beaverton, Oregon, USA, and Bahir Dar, Ethiopia. It is part of a massive effort by ShelterBox, called A Million in Africa, which intends to provide shelter for one million of Africa’s eight million refugees.

[Watch a slideshow to learn more about Rotarian disaster relief efforts.](#)

Read more about the ShelterBox Response Team training camp in England in the October issue of *The Rotarian*.
