Dr Gumley worked for the Hope Worldwide Organization in Cambodia. This organization was originally founded by the International Churches of Christ with the vision to bring hope and change lives. Dr Gumley worked in Sihanouk Hospital Phnom Penh for 6 years as Hospital Director. While working in Cambodia there was many diseases such as HIV/AIDS, broken limbs, infections including TB and Malaria. The hospital service is free but it is like a lottery if not seen today they come back the next day waiting to be healed. Graham returned to Australia in 2003. Cambodia is a very interesting place with many temples. The main diet is rice and rice growing is their major source of income. It s a bustling city with fresh vegetables and poultry sold in the markets. PP Bruce passed a vote of thanks.
