Max's Trivia

The purse, which contains money as well as other things was originally made from a hide or a skin, the Latin word for which is BURSA. The association of the purse with money resulted in the Paris Stock Exchange being called LA BORSE and the Berline one DIE BOERSE. Money paid out is literally taken from a bag, disBURSED and so the person in charge of finance at a Uni is the BURSER.

The phrase “caught red handed” originally referred to the instant catching of someone who had killed a person. The criminal was caught that fast that he didn't have time to wash the victim's blood off his hands.

Anne and George left for an overseas holiday taking in London and Europe. Anne underwent a liver transport 13 years ago and after a difficult period she is now reasonably well and George thought that it was divine intervention and he decided to help those less fortunate and joined the St Vincent's De Paul Society. George's days are very full and rewarding.
