Last Week: Julie Pearson spoke about the Sailability program

– a voluntary non-profit organisation which aims to provide a safe and friendly environment where people with disabilities are accepted and encouraged to participate in the sport of sailing. Julie is a paraplegic and has always enjoyed water activities- she attended a meeting and came away on the committee (a familiar story!!?) Sailability (which is sponsored by Rotary among others) uses experienced volunteers to crew, and are always on the lookout for new able bodied members. They have two 7.4 metre keelboats based in Hobart with another two in Launceston, along with a number of 2.3 'Access' sailing dinghies which are available statewide.

Julie has raced competitively and has had considerable success – she along with five other Sailability members will be competing in the World Access Championships in April next year – we wish them well,
